

## Pupil Premium Report

---

**2020 - 2021**

**Pupil Premium Allocation - £80,590**

### Pupil premium spending academic year 2020 - 2021

SUMMARY INFORMATION			
Date of most recent pupil premium review:	July 2021	Date of next pupil premium review:	September 2021
Total number of pupils:	213	Total pupil premium budget:	£80,590
Number of pupils eligible for pupil premium:	62 (30%)	Amount of pupil premium received per child:	£1320

## Context of the School

### School SEF 2020

Chantry Community Primary is a one-form entry school in Bexhill-on-Sea on the south coast. The school is slightly smaller than the national average with 212 (September 2020) pupils on roll. Currently 49% of pupils are girls. The Free School Meals (FSM) percentage is 25%, well above the national average of 15.8%, with 29% of children currently Ever6. 6% of children are from ethnic minorities, this is significantly below the national average. Only 1% of pupils with a first language that is not English.

Numbers on the SEND register supported on a statement or at school action plus is 14%. 1 pupil currently has an EHC Plan, (0.5%), below the national average. Mobility is low at 10%. Pupils feed into Chantry from a range of pre-school settings and there are established links to support this transition. Children arrive into EYFS with a wide range of skills and abilities. National average for primary school attendance was 93% on 17<sup>th</sup> June 2021. Our average at this point in the year was 95.7%.

Most pupils are from white, British families (July 2019) where socio-economic circumstances are below the national average. The deprivation indicator is 0.26, which is slightly above the national average of 0.24. There are poor levels of higher education amongst parents resulting in low aspirations for their children. Our families are largely employed in low-paid sectors e.g. care work and retail and have very little disposable income, hence our fluctuating FSM numbers.

## Objectives of Pupil Premium Spending

Our key objective in using the Pupil Premium Grant is to raise the attainment of disadvantaged pupils and narrowing the gap between pupil groups. As a school we have a good track record of ensuring that pupils make good progress, but historically levels of attainment are lower for FSM (eligible for free school meals) – this is also a national trend.

Our challenge in 2020 - 2021 was to close the progress gap at KS2 and accelerate progress for phonics in reception and year 1 following school closures; to ensure that children are able to regulate emotions when faced with challenge and are healthy, happy and ready to learn; to increase attendance. This year's data shows Pupil Premium children performing lower than other children across the benchmark data, except at KS2 Reading where they outperformed non Pupil Premium children; to enrich children's experience and provide equality of experience and resources.

Through targeted interventions we are working to eliminate barriers to learning and progress.

Many children start school with low attainment on entry listening, speech and language skills – we have seen a decline in ability over the last three years. Our aim is to ensure that they make accelerated progress in order to reach age related expectations and above as they move through the school.

Many of our pupil premium children also present with social, emotional and mental health difficulties. These children are finding it hard to concentrate or engage with schooling due to additional barriers of neglect, turbulent or inconsistent home life or lack of educational support. The need became significantly more apparent during the challenges that COVID presented, and has increased following the reopening of schools. We predict that this pattern is likely to continue for some time for our most vulnerable children, and support will need to continue. For some children this is likely to be intensive.

## STRATEGY STATEMENT

## STRATEGY STATEMENT

- What has worked well:
  - Mental Health & Emotional Wellbeing (EMHW) team managed by SENCo – Play therapy, Music therapy, Additional Nurture Teacher, 1:1 SEN support,
  - 1:1 Tutoring for year 6 including breakfast
  - Tutoring for years 2 and 5
  - Small group intervention for years 2 and 4
  - Family Support Worker
  - Cultural Capital - Culture Shift Club, Easter Pantomime, Storyteller, PGL, Rocksteady/music lessons, holiday clubs
  - Equality of resources/ access – water bottles, see also Cultural Capital
  - Breakfast Club
  - Investment in high quality texts
  
- What has not worked well:
  - Speechlink & Language link – due to closures and inability to utilise staff flexibly due to COVID pressures
  - Spending grant monies on generic items such as Spellzone
  - Lunch Clubs – due to inability to mix groupings and keep it consistent with COVID pressures
  - Reading Recovery Teaching Assistant – not able to utilise consistently due to COVID restrictions and need in other areas
  - Sports clubs linked to breakfast club due to lack of uptake and inconsistent attendance
  - Attendance TA – COVID pressures made this role invalid
  
- The core approaches that are currently implemented successfully are the one to one tutoring for our year 2, 5 and 6 pupils in both English and Maths, group interventions for years 2 and 4, family support worker and in school MHEW team, along with additional staff for one to one support and increasing equality of resources and access to Cultural Capital activities such as music and clubs.
  
- The overall aims of pupil premium strategy:
  - Pupil Premium children make accelerated progress following school closure to close gap
  - PP children are healthy, happy and ready to learn
  - Increased attendance in PP children
  - Accelerated progress for PP children in phonics in reception and year 1
  - PP children engage with a range of activities to broaden Cultural Capital
  - Equality of experience and resources
